## Executive Summary | About Us

---

### DEMO

YOUR COMPANY NAME INC

THE MOST ADVANCED COMPANY IN THE COUNTRY

EXPERIENCED. TRUSTED. INNOVATIVE.

We spent years listening to clients tell us their challenges and we founded this company with the specific purpose of solving every last one of them.

Our mission as a company is simple, we want to simplify the complicated process of managing pavement assets for our clients.

We do that through a unique proprietary process that provides our clients with every piece of data necessary for them to make informed and educated decisions.

We keep it simple and provide clients with the simple things they all say they want. We operate with integrity, we do what we say we're going to do,

we communicate on a level that works best for each individual client, we answer the phone and respond to emails and texts quickly, and when there is a problem...

WE RUN TO IT not away from it. These are the things that matter most to clients, and we have mastered them.

Oh yeah...and we're EXPERTS at asphalt and concrete too.

SERVICES	QTY	RATE	INVESTMENT
Project Total:			\$0.00

## Contract

---

test2 test2 |

THIS CONTRACT is made and entered into 7/16/25, 9:51 AM, by and between Demo (hereinafter called "Contractor"), and test\_new\_oleh\_account, (hereinafter called "Customer"), for the Project known as: test2 test2.

All prices stated above will be honored by both parties. Any adjustments will be agreed upon and signed off before work proceeds. Any work outside of the scope of this contract will be agreed upon in a new contract. By signing this document, you agree to pay the total owing on the contract within 30 days after the work has been completed.

### Terms of Payment

By signing below, we agree to pay the balance owing on the project in full within 30 days of completing the project.

## Proposal Terms

All asphalt surfaces will ultimately crack, including those that are resurfaced. Demo does not guarantee their work against cracking, which is a natural occurrence outside the contractor's control.

It is impossible to guarantee against cracking due to temperature, moisture, and soil conditions (which might cause cracking). The customer is aware that this is a risk that comes with the job.

Areas with flaking sealer, standing water, or moss may continue to fail after the seal coat is applied.

The hot rubberized crack sealer will not be used to fill surface cracks or degraded regions.

Large cracks are those that are 1/4" or wider in width.

Following completion, vehicles should be removed from the sealed asphalt for at least 24 hours.

Sprinklers on the job site's perimeter should not be turned on for at least 48 hours after the job is completed.

During or after the job, Demo is not liable for any water damage caused by the customer's direct fault.

Demo is not liable for any concrete damage or surface restoration in and around the work area.

Demo reserves the right to work with any subcontractors.

All agreements are subject to any unforeseen events or delays.

Any additional material or labor required to finish any portion of this proposal as a result of revisions or mistakes made by other contractors will be done only upon written order and will be charged separately.

Any additional material (asphalt, stone, crack sealer, seal coat) ordered after the aforementioned contract agreement

will be completed only upon written order and will incur a fee.

If a cancellation notice is not received within three business days following the contract agreement, Demo will assume that the customer has accepted the work under the terms of the contract. Any cancellation of this contract after the first three business days of contract acceptance may result in a partial charge to Demo to cover any planned preparations and supplies already ordered or applied on the construction site.

Payment in full is expected upon completion of the work.
